

Plan for Safe Return to In-Person Instruction and Continuity of Services

June 1, 2021

**Revised: December 1, 2021
May 20, 2022
November 28, 2022
May 22, 2023**

Section 1: Introduction

The purpose of the American Rescue Plan (ARP) Act Elementary and Secondary School Emergency Relief (ESSER) III Fund is to help safely reopen and sustain the safe operation of schools and address the impacts of COVID-19 on the nation's students by addressing students' academic, social, emotional, and mental health needs. This plan describes how Mecklenburg County Public Schools will maintain the health and safety of students, educators, and other school and division staff during and following the return to full in-person instruction. Questions about this plan should be directed to Mr. Paul C. Nichols, Superintendent.

Section 2: Maintaining Health and Safety

Mecklenburg County Public Schools has taken and will continue to take actions to ensure the health and safety of students, educators, and other school and division staff during and following the return to full in-person instruction. A description of actions already taken and additional actions planned is below.

Mecklenburg County Public Schools will continue to collaborate with Southside Health Department (SSHD) to ensure a safe and healthy learning environment for our students and staff. Regardless of the learning model, any person entering Mecklenburg County Public Schools property will be required to follow all current public health regulations.

Public Health:

- Hand-washing and hygiene protocols will be reviewed and continually practiced
- Short-term school closures may be required by suspected and/or confirmed COVID-19 cases (health department guidelines will determine this); individual students will be sent home if they are symptomatic
- Additional cleaning protocols will be in place daily and weekly

In addition, Mecklenburg County Public Schools has adopted procedures on each of the following safety recommendations established by the Centers for Disease Control and Prevention (CDC).

1. Universal and Correct Wearing of Masks/Handwashing and Respiratory Etiquette

- Signage on how to stop the spread of COVID-19, properly wash hands, and promote everyday protective measures including face coverings will be on display in buildings.
- Consistent scheduled times and procedures will be established throughout the day for hand hygiene, promoting thorough hand washing and cough/sneeze cover protocol.
- All staff and students will be required to stay home when experiencing COVID-19 symptoms.

2. Cleaning and maintaining healthy facilities, including improving ventilation

- MCPS will consider ways of increasing the circulation of outdoor air as much as possible by opening windows and/or doors as long as it does not pose a safety or health risk to

other students.

- To the extent possible, students and staff should limit the sharing of all supplies, utensils, devices, toys, books, and learning aids.
- Custodial cleaning practices will be focused on cleaning for health, which includes an emphasis on disinfecting surfaces where bacteria or viruses are most likely to be transmitted.
- Protocols will be put into place for each building to ensure frequent cleaning of restrooms, doorknobs, and other high touch areas.
- Appropriate hand sanitizing stations will be placed in certain areas of the building.
- The Custodial Services Department will consult with the Southside Health Department and the Virginia Department of Public Health to ensure appropriate and timely measures are taken to preserve the health and safety of our students, staff, and community.

3. Contact Tracing in Combination with Isolation and Quarantine/Diagnostic and Screening Testing

MCPS will work in coordination with the Southside Health Department regarding outbreaks of COVID-19. Southside Health Department (SSHD) will assist the Mecklenburg County Public Schools leadership team to determine a course of action for their individual schools on a case-by-case basis. The SSHD has indicated this may include the quarantining of students and associated staff for a short-term period.

If an employee or student becomes ill on school premises, the employee or student will report to the school nurse to be evaluated.

- The nurse and others attending to the suspected infected person, will also wear protective gloves while working with the suspected infected person.
- The nurse will direct the ill employee to leave work or call the parent/guardian of the student to be picked up and go home.

4. Efforts to Provide Vaccinations to School Communities

MCPS has partnered with the Southside Health Department to provide numerous opportunities for its faculty and staff members to participate in vaccination clinics. Anyone who inquiries about vaccines will be directed to the Health Department or their Primary Care Physician.

5. Appropriate Accommodations for Children with Disabilities with Respect to Health and Safety

The Special Education Department is committed to providing free and appropriate educational opportunities for students with disabilities, to the greatest extent possible in alignment with public health guidelines. Collaboration with families has always been an integral part of the special education process and continues to be essential during this time. To address the unique needs of students with disabilities, special education providers will continue the work with families to collaboratively identify the most essential services for each student that can be provided both directly and indirectly regardless of the learning environment. Service plans will be adjusted as needed for the circumstances of the learning environment.

In light of the COVID-19 pandemic, educators and paraprofessionals have been tasked to redefine how learning happens. The Special Education Department will carry on with creating avenues for learning and sharing new approaches. This will include professional learning sessions, online resources, working with current vendors for supplemental curriculum resources, and remote collaboration platforms that support educators and paraprofessionals in setting the stage for this future learning.

General education, special education, related services providers and families will discuss students' individual needs and agree to a prioritized set of services that provide access to curriculum and enable progress toward IEP goals. Families and staff will discuss and agree to a set of prioritized services to be delivered in-person, when possible. Other services will continue remotely as specified in the IEP Services. Services for students with specific health or support needs will be addressed in collaboration with families on an individual basis.

Accommodations and modifications can be provided regardless of the educational setting. General and special education teachers will continue to collaborate in determining the appropriateness and success of a student's unique accommodations and modifications documented. The IEP team, (general education teachers, special education, related services providers, and families), will work collaboratively to identify alternative solutions if it believes an accommodation or modification is not appropriate or successful in a particular setting.

Special Education and Related Service Providers use digital platforms approved by the district for secure access. Families may provide consent to participate in teletherapy sessions with providers when remote services are required. Families or other household members may observe or otherwise participate in distance learning opportunities. As with an in-person observation in a classroom, educators may set ground rules regarding non-students' presence during remote instruction.

6. Coordination with State and Local Health Officials

Mecklenburg County Public Schools will continue to collaborate with the Southside Health Department to ensure a safe and healthy learning environment for our students and staff. Any person entering Mecklenburg County Public Schools property will be required to follow all current public health regulations. Any outbreaks of COVID-19 will be reported to the Health Department.

Section 3: Continuity of Services

Mecklenburg County Public Schools has taken and will continue to take actions to ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs.

Academic

Mecklenburg County Public Schools has embraced an educational model focused on engaging students in the content using the 5 C's of Collaboration, Communication, Critical Thinking, Creativity, and Citizenship. Through the completion of student's academic and career plans, we encourage early and frequent opportunities to consider career pathways, to personally experience

learning, and meaningful assessment of learning. No matter what limitations may be imposed on our instruction by public health guidelines, this model will remain in place for teaching and learning.

MCPS is following an in-person learning model for the 2022-2023 school year.

We will support educators' planning and instructional needs with professional learning, resources and supports to:

- Encourage students to foster strong relationships, routines, and expectations necessary for success in face to face learning environments and sustain those relationships and learning throughout the school year.
- Create flexible learning expectations and timelines to utilize multiple ways for students to share their learning through assignments, tasks, and projects.
- Gain a deeper understanding of the grade level curriculum and resources with a focus on prioritized 2020 Virginia Standards of Learning to ensure critical learning happens.
- Review and provide meaningful feedback on student work to adjust instruction and set learning goals with students.
- Adapt an instructional approach that may include multiple avenues to produce the final product of learning.
- Identify anticipated student learning gaps and strategies to close them through ongoing staff training and resources.
- Prioritize foundational literacy and math skills to spiral content to support struggling readers and embed rich remedial/intervention strategies and the best developmental instructional practices for elementary grades; pre-kindergarten through 5th grade.
- Embed missed literacy and mathematical concepts into the current curriculum at all levels Kindergarten-grade 8.
- Support student learning interests and needs to ensure career and college readiness for middle and high school levels aligned to Virginia graduation requirements.
- Provide additional learning opportunities for students through remediation to address learning loss.
- Equip the elementary schools with additional staff to provide more support in the classroom to help students achieve their learning goals.

Social, Emotional, and Mental Health

The Student Services Department is working to provide ongoing resources to families and community members. Student Services will continue to provide schools with the protocols and training necessary to support the mental health needs of students.

- For students who express concerning language or behaviors while in their school building, a school counselor or school psychologist will administer an in-person risk assessment and follow protocols established for in-person interactions.
- All crisis event responses will be made in collaboration with the Division's Crisis Team and building level administration using building or remote protocols as needed.
- An emphasis will be placed on training all staff on recognizing signs of depression and anxiety.

- Staff will receive training in mandatory reporting and recognizing signs of distress in remote learning environments.

Student Services will work with all schools to support staff best practice around trauma informed practices. A focus will be placed on supporting a positive climate and culture that acknowledges universal trauma care strategies for students. Best practice guidelines will be available in order to support students who may need more support. Student Services will provide ongoing consultation to staff. Student Services is working on protocols to monitor and assess the status of students’ social-emotional health as they return to school. To address social-emotional good health, a social emotional screener will be used. School psychologists will be trained and prepare proper training for this process.

Section 4: Opportunity for Public Comment

In developing the ARP ESSER Plan, Mecklenburg County Public Schools sought public input and took such input into account as described below.

During the summer of 2020, meetings and surveys were conducted to create a Fall 2020 Opening of Schools Instruction Plan. The plan was reviewed and approved by the Mecklenburg County School Board, and the public was given an opportunity to provide comment. The plan has been reviewed by the COVID-19 Planning Team and by principals and been revised as deemed necessary.

Mecklenburg County Public Schools will continue to seek the input of the public as this plan will be reviewed periodically until September 2024. At any time, members of the public may submit questions, comments, or suggestions to placks@mcpsweb.org.

Section 5: Periodic Review and Revision of Plan

During the period of the ARP ESSER award (until September 2024), Mecklenburg County Public Schools will periodically review and, as needed, revise its plan for the safe return to in-person instruction and continuity of services. The plan will be reviewed at least every six months, and Mecklenburg County Public Schools will seek and take into account public input during the review process. Plan revisions will address updated CDC guidance on safely reopening schools, if any are issued.

Section 6: Making the Plan Available to the Public

Mecklenburg County Public Schools has taken the following steps to make this plan available to the public:

- The plan is posted at <http://www.mcpsweb.org>;
- The plan is available in English and Spanish;
- The plan may be orally translated for parents. Contact MCPS Central Office to request translation; and
- Upon request, a parent who is an individual with a disability as defined by the ADA may be provided with the plan in an alternative format accessible by contacting the MCPS Central Office at (434) 738-6111.
